God has an answer for every problem you may face today or will face in the future.

- 1) When faced with a problem, pray about it, asking that God's will, rather than your own, be done.
- 2) Having prayed, believe that God will bring the matter out right.
- 3) Write the problem out in detail.
- 4) Always ask yourself what is the right thing to do. Nothing that is wrong ever works our right.
- 5) Keep thinking and keep working at the problem. First try one thing, then another, until you find a solution.
- 6) When your problem is solved, thank God. Give one tenth of your income to God's work. When you give, God's blessings will be released to flow into your life.
